DETAILED ACTION

1. Claims 1-4 and 32-34 remain rejected for reasons of record given in the Office Action dated 4/28/09.
2. Applicant's amendments filed 1/26/10 are acknowledged.

Response to Arguments

Applicant's arguments filed 1/26/10 have been fully considered but they are not persuasive.

Applicant has amended the claims to further limit the organic compound to numerous classes of compounds and argues that the said amendments more than satisfy the standards set forth in 35 USC 112, second paragraph.

This is not persuasive because a mere recitation of the molecular compound being derived from the reaction of a phenolic derivative and organic compounds, as now defined, still does not provide sufficient clarity to one having ordinary skill in the art, without guidance in the present disclosure, to determine ultimately the chemical structure of the resulting molecular compound. Thus, it is still unclear to the Examiner as to what is the intended structure of the presently claimed molecular compounds.
